1:00 PM

Professor Quinlan Sutter (Helmsman)

**AlphaStream 5.0 Crypto Grammy Profit Challenge has been officially launched:
Targeting a 200%-600% return!**

Good afternoon, my friends!

I'm Quinlan Sutter, your old friend. There is a season for everything, and a time for every purpose under heaven. On our journey through life and investing, we must carefully discern the seasons of opportunity that God has arranged for us. Investing is not merely a numbers game, it is a journey filled with faith, hope, and vision. Standing on the shoreline, watching the waves crash against the rocks, we see that each wave carries immense potential. It is often in these seemingly uncertain moments that the greatest opportunities are hidden.

Just like fishermen who cast their nets with confidence, we must approach investing with faith, decisive action, and full preparation. Patience and perseverance are the common secrets to success in both life and investing.

Only by believing in ourselves, staying focused on our goals, and continuing our efforts can we reap the fruits of our labor at critical moments. Every fluctuation hides an opportunity, and every act of persistence accumulates toward victory. No matter how the market changes, we must trust that with unwavering faith and dedicated effort, success will come as expected.

Now is the time to seize the opportunity! Let us face every challenge in investing with fearless determination and embrace victory with equal passion. Take bold steps forward, fueled by a desire for success and an unwavering pursuit of excellence. My friends, let us set sail together on this journey filled with endless possibilities. Trust in the Lord's guidance, for in His hands, all things are possible.

I hope today's message serves as a turning point in our shared journey to mastering the art of investing, perhaps even opening new pathways in the vast ocean of business. The Bible teaches us, "As iron sharpens iron, so one person sharpens another." Through the wisdom and experience we share, we will grow stronger and move toward a future full of blessings and abundance. Let us work together, illuminating the path with faith and writing our own extraordinary story through action!

Today, I want to inspire you to challenge yourself and reach for new heights in your dreams and life. Each of our lives is filled with potential opportunities; the key is whether we are willing to observe them closely and act boldly to seize them. The weekend is the perfect time for reflection and evaluation, as well as a critical moment to recharge for the week ahead. At this meaningful juncture, I want to join you in celebrating past achievements and preparing for an even brighter future.

After successfully completing the Passion December 300% Profit Plan within two weeks, I've received a wealth of feedback and suggestions from many of you. We carefully analyzed this data, from your sharp insights into market dynamics, assessments of learning progress, and impressive returns, to profound reflections on investment strategies, all of which have truly inspired me. Your passion for learning, steadfast commitment to investing, and remarkable achievements showcase the immense potential of our community. While there's still room for improvement, your performance has not only exceeded my expectations but also laid the foundation for us to achieve a historic breakthrough together.

As long as we hold onto faith and pursue our goals with determination, the doors to success will eventually open for us. Every challenge is an opportunity for growth, and every opportunity is a pivotal moment to change our destiny. Now is the time to seize these possibilities, face them with courage and resolve, and fight tirelessly for your dreams!

I firmly believe that everyone's future is filled with hope. We have already charted a clear path forward; what remains is to take bold, decisive steps and move forward with courage. No matter the storms we face, as long as we maintain our faith, the moment of breakthrough will come. We will rise, soar to great heights, and reach beyond the skies.

Friends, let us set our sights on the limitless possibilities of the future. Let us not be constrained by temporary difficulties but instead face each day's challenges with action and unwavering faith. Your persistence and hard work will be the driving force that propels you to soar in the investment market and write your own success story!

In response to your feedback and to help each of you better achieve your trading goals, I'm thrilled to announce an exciting new venture: the AlphaStream 5.0

Crypto Grammy (200%-600%) Profit Challenge. This marks a bold new exploration and another significant step forward on our journey filled with opportunities. With faith, we can undoubtedly achieve this goal.

In the previous Trading Practical Boots Camp, Samuel Blackwood achieved an astonishing 800% return, an extraordinary accomplishment in itself. Now, with the full support of AlphaStream 5.0, this challenge's target seems relatively conservative. Yet I firmly believe that every participant will once again surpass their limits and create new milestones of success.

Friends, a new week is about to begin. Let us set sail with faith as our compass and courage as our helm, continuing to write our own success stories. The choices you make today will determine the heights you reach tomorrow. Take action now! Together, let us embrace new challenges and create an even brighter future!

Delving into the heart of the crypto boom, we will strategically capitalize on the unique opportunities presented by the Federal Reserve's interest rate decision and next month's Non-Farm Payroll (NFP) data. This plan spans two critical cycles, expertly tailored to provide every participant with a profit target of 200%-

600%. Here, everyone has the chance to find their own path to victory. Let us approach this exciting challenge with renewed enthusiasm and steadfast confidence. This is not just an opportunity for trading, it is a journey of self-transformation.

Believe in the limitless possibilities of the future. As long as we pursue our goals with courage and take decisive action, success will undoubtedly be ours.

This profit challenge is not just a money-making endeavor—it is a powerful testament to the incredible opportunities presented by the current crypto market. This plan highlights the importance of a quant-driven trading model, serves as the strongest validation of the robust capabilities of the AlphaStream 5.0 system, and reflects our QTM community’s commitment to fulfilling its social responsibility. Join this extraordinary journey where anticipation turns into opportunity, and goals are achieved—perhaps even surpassed! Each day will be another step closer to realizing your financial dreams. Let us dive into the “Crypto Grammy” extravaganza together, guided by the innovative power of AlphaStream 5.0, and dance to the rhythm of the market’s energy and passion.

Friends, we stand at the dawn of history, ready to seize new opportunities and carve our own legend in the story of investment success, becoming a model for others to admire. In this unprecedented new era of investing, we must align our aspirations and strategies to prepare for the journey ahead. Here are some key points I'd like to share with you:

Seize the Historic Opportunity of Our Era

It is undeniable that the stock market is currently in a phase of high-level adjustment, characterized by volatility, which may extend through the end of January next year. Meanwhile, the crypto market is entering its golden age. With its unique trading mechanisms, the crypto market is now at the peak of its profit cycle.

The upcoming Federal Reserve interest rate decision is expected to trigger significant market fluctuations, offering investors a rare opportunity. Against the backdrop of subdued trading activity and mounting adjustment pressures in the stock market, the crypto market has captured global investors' attention with its remarkable profit potential. The evidence is clear: now is the golden moment to seize opportunities in the crypto market.

As the Bible says, “See, I am doing a new thing! Now it springs up; do you not perceive it? I am making a way in the wilderness and streams in the wasteland.” For investors, missing out on the current market opportunities is akin to wasting the blessings bestowed by this era. Hesitation means forfeiture, but action is the key to seizing the future.

Historical Data Boosts Confidence

Friends, let us reflect on this extraordinary journey in the crypto market. During the two-week Passion December Challenge, we achieved an astonishing 300% total asset return. This marked the first major challenge since the launch of the AlphaStream 5.0 “Millionaire Boots Camp,” and it concluded with resounding success, fully showcasing the remarkable strength of AlphaStream 5.0.

Throughout this challenge, AlphaStream 5.0 served as our absolutely reliable compass, delivering 17 precise trading signals with zero failures. This not only highlights the immense profit opportunities within the crypto market but also demonstrates how strategic, diversified investments can yield remarkable returns. These achievements are a testament to our collective efforts, as well as the results of unwavering faith and precise execution.

This success has not only strengthened our confidence in trading but also underscored the extraordinary capability of AlphaStream 5.0 as a powerful market tool. It provided us with direction, and with steadfast belief and exceptional skill, we turned that guidance into a brilliant journey. These historical data points have reignited our confidence in the future.

Every past victory is the foundation for future success. From these numbers, we draw strength that propels us forward. Behind every success lies diligent effort, and every reward comes from bold action. Opportunities always belong to those who work for them and are prepared to seize them at any moment.

Let us continue to set sail with faith as our compass and hard work as our oars, steering toward an even brighter future. The opportunities before us are waiting to be grasped, and the next success is calling us forward. With our wisdom and determination, we will face new challenges and achieve even greater dreams. Remember, the greatest rewards always go to those who dare to take the first step. Together, we will write a new legend and journey toward a future filled with limitless possibilities!

This Opportunity Belongs Not Only to Us but Also to AlphaStream 5.0

Friends, this opportunity is not only a victory for us in the profit plan but also a testament to the exceptional performance of AlphaStream 5.0! Before the live trading began, AlphaStream 5.0 underwent two large-scale tests with nearly 10,000 participants, achieving a staggering 100% success rate. Now, as the core tool of the live profit plan, AlphaStream 5.0 is allowing every participant to experience the unique allure of quant-driven trading firsthand.

This is more than just the success of an investment plan, it's a strategic preparation for the future. This challenge has not only enabled everyone to achieve substantial profit targets but also laid a solid foundation for the community charity fund we plan to establish in March next year. The launch of AlphaStream 5.0 signifies a transformative moment for the global investment industry. In March, this system will be globally released and introduce a subscription service, poised to change the fortunes of countless investors.

The power of AlphaStream 5.0 lies not only in its precise trading signals but also in the confidence it instills in us to seize opportunities. The current crypto market is offering diverse investment opportunities, and all we need to do is leverage this system to achieve our profit goals. This is not merely about financial returns, it's a journey to fight for our dreams.

By participating in this challenge, you are not only working toward your own future but also supporting the core mission of our QTM community and the ongoing development of the AlphaStream 5.0 system. This is not just a commitment to your own aspirations but also a contribution to the community and to those who need support.

In the dynamic world of investing, practical experience is absolutely essential. Success stems from action, and live trading is the ultimate test of our trading abilities. During the previous Trading Practical Boots Camp, we witnessed many participants achieve their investment dreams through hard work, especially trading experts like Samuel Blackwood. Their success is not just a personal achievement but a tremendous asset to our community.

Passing on this experience and cultivating more success stories is both the mission and responsibility of our community. As time goes on, I am acutely aware that my passion and energy may not last forever. This makes it even more crucial for us to work together to help the younger generation of investors take up this mission. Their growth is not just about individual progress but also about the future of our entire community and society.

If AlphaStream 5.0 can help everyone achieve the goal of generating one million dollars in profits, its value will be widely recognized by the market. Our success will not only be a personal honor but also the greatest validation of our team and technology. It signifies that we hold a strong competitive edge in the fintech industry.

As AlphaStream 5.0 continues to deliver exceptional results, our global launch plan is entering its final countdown. This is not just a milestone, it is a new beginning that will empower more investors to achieve their financial goals. Looking ahead, we will keep expanding our impact, providing support and opportunities to even more individuals.

Achievable Goals Together

Over the course of two weeks, we successfully achieved a 300% total asset return. This not only showcases our potential but also signals that even greater opportunities lie ahead. The upcoming Federal Reserve interest rate decision and the release of key economic data provide us with a fresh foundation for profit. A 200% return is already within our grasp, but if we can seize the opportunities presented by the upcoming market volatility, why not aim higher and set a 600% target? The market's peak moments often occur just before

expectations are fully realized, and we find ourselves at such a golden juncture right now.

Now, ask yourself a crucial question: What profit do you truly want? Wanting and needing to achieve are two entirely different mindsets, and they will determine the actions you take next. If you truly understand this, you've already taken a significant step toward success. This is our moment, a golden opportunity is knocking at our door.

The data in the market doesn't lie, it serves as a clear signal and a guiding light for our progress. Every market fluctuation presents an opportunity to explore potential and achieve our goals. If we fully commit ourselves and seize these signals, we can uncover immense hidden opportunities. Friends, now is the best time to act. Let's give it our all and stride toward an even brighter future!

Execution Will Determine Your Profits

Over the past two weeks, we successfully completed the "Passion December 80% Profit Challenge" and exceeded expectations with a 300% return. This achievement has not only clarified our shared goals but also highlighted the

critical importance of execution. However, throughout this process, we've observed that for a small group of individuals, the real challenge doesn't lie in market opportunities but in the ability to take action and execute effectively. This is both a litmus test for personal growth and a profound examination of the values of our community.

In investing, understanding and harnessing the power of compounding is absolutely critical. As Einstein famously said, "Compound interest is the eighth wonder of the world. He who understands it, earns it, he who doesn't, pays it." The principle of compounding teaches us that returns accumulate over time, ultimately leading to substantial rewards. Simply put, steady progress and consistent accumulation are the keys to transforming our investment destiny.

Effective execution is the bridge that turns this theory into reality. Through well-thought-out decisions and unwavering action, we can not only achieve our profit targets but consistently exceed expectations. Success is never achieved overnight—it is the result of steady, methodical efforts built up over time.

Friends, success doesn't come from flashy moves but from the small, consistent efforts made every day. Every grounded action lays the foundation

for the future. By staying on the right path and focusing on execution, each step will bring us closer to our goals. Market fluctuations and challenges are inevitable, but as long as we remain confident and persistent, our season of harvest will surely come.

Meeting the Personalized Needs of Different Investors

In the world of investing, the strategies for trading \$10,000 and \$10 million are clearly not the same. Likewise, each individual's risk tolerance, goals, and capital vary. This diversity reflects our unique investment psychology and understanding of the market. If you approach trading with an amount of "insignificant" money, you might treat it casually, seeing it as a game, which can lead to rash decisions. However, if you approach investing as Samuel Blackwood does, viewing it as a serious business where every decision is made with great care, your outcomes will be entirely different.

To address this, I have introduced a personalized profit plan designed to help every participant maximize their returns. Based on the principle of "minimizing risk, maximizing profit," these plans are structured into tiered VIP partner groups according to account balances. Within these groups, we provide customized trading signals, varying frequencies, and exclusive profit targets.

This tailored approach ensures that, regardless of your starting investment level, you can achieve maximum profitability under the same trading conditions.

This is not only a deep commitment to our AlphaStream 5.0 Profit Plan but also a guarantee of your success on this million-dollar profit journey. Through this personalized approach, we can more accurately address each individual's needs, helping every participant make the most of their capital and achieve greater breakthroughs in the market.

VIP 1: Associate Partner Group

- Capital Range: \$100,000 - \$500,000**
- Contract Trading Chart Timeframe: 1-30 minutes**
- Weekly Trading Signals: 1-4 signals (including COF/USDT)**
- Total Asset Return Target: 200%-300%**
- Trading Style: Primarily short-term operations, swiftly capturing opportunities from market fluctuations.**

VIP 2: Intermediate Partner Group

- **Capital Range: \$510,000 - \$1,500,000**
- **Contract Trading Chart Timeframe: 1-60 minutes**
- **Weekly Trading Signals: 1-8 signals (including COF/USDT)**
- **Total Asset Return Target: 300%-400%**
- **Trading Style: Primarily short-term operations, combined with additional trading signals to enhance profit opportunities.**

Tailored for intermediate investors with some experience, this group offers more flexible signal frequencies and chart timeframes, enabling you to seize more opportunities in diverse markets and achieve higher return targets.

VIP 3: Senior Partner Group

- **Capital Range: \$1,510,000 - \$5,000,000**
- **Contract Trading Chart Timeframe: 5 minutes to 1 week**
- **Weekly Trading Signals: 1-12 signals (including COF/USDT)**
- **Total Asset Return Target: 400%-600%**

- Trading Style: A combination of short-term -and mid-term operations, adapting flexibly -to market changes.

Designed for seasoned investors with substantial capital and long-term investment goals, this group leverages multi-dimensional trading strategies and diverse signal support to help you make precise allocations over longer timeframes and achieve exceptional returns.

No matter which level you are at, the VIP Partner Groups are tailored to provide you with the most suitable strategic support based on your capital size and investment goals. From high-frequency short-term trading to steady mid-term positioning, our VIP plan is designed to help you maximize your investment returns in the market.

Friends, investing is not a game, it is a serious journey that requires scientific planning and precise execution. Only through rational decisions and effective strategies can we achieve true wealth growth. If you are ready to seize this once-in-a-lifetime opportunity, choose the VIP group that suits you and join us on the path to financial freedom!

Our goal is not only to help you achieve financial growth but, more importantly, to transform success into contributions to society, driving shared prosperity and innovation. We are committed to helping everyone reach their financial goals while embracing greater social responsibility. This is the mission we tirelessly pursue: using success to benefit more people.

The community charity fund, set to launch in March next year, will be a significant initiative in our contributions to society. It is not just a promise to one another but a powerful force for advancing social progress. Through this fund, we hope that every participant will take concrete actions to fulfill this commitment after achieving their profit goals. Our community is not just a team for creating wealth but a catalyst for positive social impact. Your participation and donations will bring hope to those in need and add more blessings to society.

Those who give generously will always gain more. In supporting others, we also experience personal growth and fulfillment. This is not just about the increase in numbers; it's about enriching life accomplishments. Through our collective efforts, we can create a brighter future.

Wisdom and prudence are the compass of investing. We need a clear vision to identify opportunities and a rational mindset to mitigate risks. Every investment is a journey to uncover value.

First, I'd like to present a game-changing recommendation: I strongly urge all of you to reallocate your funds and concentrate your available capital into the crypto market. While we are accustomed to supporting the national economy through the stock market, its growth cycles are inherently limited. With the recent intensification of high-level volatility in the stock market, its uncertainty is becoming increasingly apparent. Meanwhile, the rapidly expanding crypto market is demonstrating unprecedented potential. Imagine this: the crypto market is not just a platform for contract and spot trading; it holds even greater wealth-building possibilities, waiting to be uncovered.

Now is the perfect time to take action. We must act decisively and seize the opportunities in front of us. By fully committing to the crypto market, we can achieve higher returns and position ourselves ahead of the curve with forward-looking strategies. Don't let opportunities slip through your fingers. This is the ideal moment to reallocate your funds and embark on a new journey.

The Wealth Matrix: A Wise Strategy for Balancing Returns and Risks

In the pursuit of high returns, maintaining a balance with risk is equally important. This is not merely an investment strategy but a wealth management insight born from thoughtful deliberation.

The core principle of the Wealth Matrix is both simple and effective: Each time we generate profits through contract trading or index trading, half of those profits are allocated to short-term financial products, preferably with a 30-day maturity. These products offer high returns while providing reliable security for our investments. This strategy ensures that we can enjoy the rapid gains from our investments while steadily accumulating long-term, stable returns.

Through this balanced approach, we can achieve rapid growth while maintaining the security of our funds. Within our investment portfolio, whether it involves trending stocks in the equity market, spot and contract trading in the crypto market, or fixed high-yield financial products and index investments, all assets are carefully selected to ensure returns that exceed expectations.

Commitment and Rewards: Giving Back Through Action

1. My Commitment:

If you strictly follow our trading signals and still encounter losses, I will take full responsibility. This is not just my commitment but a principle I have upheld throughout my career. From my days as a hedge fund manager, being accountable to clients has been the cornerstone of my success. Today, I bring the same sense of responsibility to every member of our community.

2. The Prerequisite for Execution:

If the plan is not followed strictly, I cannot be held accountable for the results. Execution is the foundation of success, and only by adhering to the trading strategy can we achieve victory together.

3. Reward Mechanism:

The top 10 performers in this profit plan will be awarded one year of free access to the AlphaStream 5.0 Institutional Edition.

Members ranked 10th to 30th will receive two years of free access to the AlphaStream 5.0 Personal Edition.

All participants in the VIP groups who meet the profit targets will earn six months of free access to the AlphaStream 5.0 Personal Edition.

These rewards are not only a recognition of your hard work but also a way to give back for your trust and commitment to execution. Through AlphaStream 5.0, we aim to help every member achieve breakthroughs in the golden era of the crypto market.

Dear Esteemed QTM Community Investment Elites, as we embark together on this passionate and challenging journey of wealth growth, I hope that by tomorrow morning, every one of you will be in your best state of mind to embrace this new wealth competition that could change your life. Tomorrow's early market session is not just the kickoff of a profit plan; it marks the unveiling of an entirely new chapter of wealth creation. I will personally guide you as we delve into real-world opportunities within the market, sharing practical trading techniques and profound investment philosophies. This will be an unprecedented event and an opportunity you cannot afford to miss!

Now, don't wait any longer! Action is the first step to changing your destiny. Together, we will explore the secrets of investing and uncover strategies that

can truly transform lives. With your faith and determination, follow our lead, seize this unprecedented opportunity, and let's write a glorious chapter together!

If you're eager to join this event immediately and want to fully prepare in advance, then act now!

Message me directly, Samuel Blackwood, or reach out to my assistant. Let's create a plan together to ensure you are in your best form to meet the challenge and become one of the brightest stars in this extraordinary journey.

What should you do at this moment?

Act now! Don't hesitate, let this decision pave the way for your future. One choice could set you on the path to early retirement and a brighter, freer life. Remember, success belongs to those who act decisively, not to those who stand on the sidelines!

I look forward to seeing your transformation and working with you to achieve greatness!
